#### Part 7: Short Passage Questions (4% , 每題 2 分)

Read the paragraph and answer the questions.

How did the seven days of the week come to be? The names were originally based on the Roman calendar, in which each day pointed to one of the heavenly bodies. English has kept the same names for only Saturday (Saturn), Sunday (Sun), and Monday (Moon), giving the remaining four days the names of gods from northern European culture. Perhaps the most famous of these is Thursday, named after Thor, whom you may already know from comics and superhero films. The most widely accepted theory for why there are seven days in a week comes from Babylonians, who organized time based on lunar cycles. As for the weekend, it changes with one's location and beliefs. Sunday is the day of rest in most Western and Christian parts of world, while Friday is the day of prayer for Muslims.

- ( ) 27. What is the best title of the passage?  
(A) How Lunar Cycles Work  
(B) What Each Day of the Week Means  
(C) The Influence of European Gods  
(D) Where the Modern Calendar Came from
- ( ) 28. What best explains why there are seven days in a week?  
(A) It was based on northern European culture.  
(B) The calendar follows the pattern of the Moon.  
(C) The Babylonians admired the god of the Sun.  
(D) The Romans originally had seven gods.
